

Attention Resident

RC Enterprise Paving and Construction has been contracted by Springville City to Construct the 800 S Intersection Project. Work is scheduled to begin July 1st, 2026, and is expected to last till about September 30th, 2026. Work will take place along 800 S and 800 E, along with 900 South. The project consists of Installing a new 5 leg roundabout to improve traffic flow and pedestrian safety.

Please help us ensure a safe and successful project by doing the following.

- Keep children away from any construction zone or equipment
- Minimize parking on or near any marked concrete or asphalt
- Do not allow sprinklers to run on newly poured concrete – wait 24 hours
- Do not drive vehicles on newly poured concrete for 7 Days

What to Expect

- Louder Construction Vehicles, Noises, and minor vibrations, minor dust
- Road Closures from July through September, traffic delays, detours
- Temporary Water Shut offs for relocating existing facilities
- Advance Coordination will be made with directly impacted residents throughout the project

We appreciate your cooperation and apologize for any inconvenience
