COME SEE WHAT'S HAPPENING AT YOUR LIBRARY!

Whether you're stopping by to grab your next great read, bringing the kids to an event, getting creative, meeting up with friends, or just looking for a place to hang out, there's a spot for you at the Springville Library. Check out what we have coming up this fall and winter—and come see all the ways your library is here for you and your community!

STAR WARS PARTY

Friday, October 2 | 7-9 PM

Come dressed as your favorite Star Wars character at our 12th annual Star Wars Party. Meet Darth Vader, visit fun game and craft booths, and collect plenty of candy along the way. Intergalactic costumes are encouraged!

FAMILY SPOOKY ALLEY

Thursday, October 22 | 6-8 PM

Our Spooky Alley is the perfect place to celebrate the Halloween season with some spooky fun. Costumes are always encouraged!

SPRINGVILLE LIBRARY'S 15TH BIRTHDAY CELEBRATION

Thursday, October 29 | 6-8 PM

Help us celebrate 15 years in our library building! We're marking this special milestone with an evening of celebration, community, and, of course, CAKE! Come celebrate 15 wonderful years with us and see what makes the library such a special part of our community.

DÍA DE LOS MUERTOS COMMUNITY OFRENDA

Noviembre 2-7 | Durante el horario de la biblioteca

Ven a celebrar el Día de los Muertos con nosotros. Honra a tus seres queridos que han fallecido escribiendo su nombre en un papel de caléndula y colocándolo en nuestra ofrenda comunitaria. Las fotos de tus seres queridos también son bienvenidas y pueden colocarse en la ofrenda. Para ayudar a mantener las pertenencias de todos seguras, les pedimos que dejen otros objetos personales en casa para evitar que se dañen o se pierdan.

Ven a recordar, honrar y celebrar juntos.

WINTER READING KICKOFF: YETI, SET, READATHON

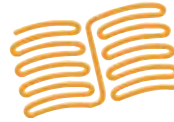

Monday, November 30 | 4-6 PM

Winter Reading is back! Kick off the season with Yeti, Set, Readathon and get ready for a winter full of reading, activities, and fun. Check our online [calendar](#) for the full lineup of Winter Reading events, including Santa's Workshop, holiday slime, and more!

YOUTH MAKER'S MARKET

Thursday, December 3 | 6-8 PM

Local young creators will be selling their handmade goods and creations, making this the perfect opportunity to find unique gifts while supporting our community's young entrepreneurs.

CITY SOURCE

FALL 2026

MAYOR MATT PACKARD

PUBLISHED QUARTERLY— WINTER, SPRING, SUMMER AND FALL— THROUGH EMAIL OR YOUR SPRINGVILLE BILL

MAYOR'S MESSAGE

I would like to express my sincere appreciation to each of you

for your patience as the city has managed several road construction projects throughout the summer, with some extending into the fall.

We sometimes joke that Utah has two seasons: winter and road construction. This year, the orange-cone season has been especially busy.

Several major projects have been underway in and around Springville, including work associated with the opening of the new Springville High School, water service improvements along Canyon Road and the opening of UDOT's new I-15 Dry Creek Parkway interchange.

Several residents have asked me why road construction sometimes continues into the beginning of the school year. It is a fair question. Construction

schedules depend on many factors, including weather, funding, project design, bidding and contractor schedules, coordination with other agencies, and unexpected conditions discovered during construction.

Much of our roadwork is concentrated during the warmer months, when conditions are better for paving, concrete work, and other construction like pipe replacement. Funding and project coordination also play a role. Springville's fiscal year begins July 1, and many city projects are planned through the annual budget process. Other projects involve state, county or federal funding or coordination with agencies such as the Utah Department of Transportation. Funding sources, project requirements, bidding schedules, and contractor availability all affect when work begins and ends.

Road construction is inconvenient, and there really is no ideal time to close a road for maintenance, repair or major improvements. We appreciate your patience

as we work to maintain existing infrastructure and prepare for a great future in Springville.

Each year, I look forward to seeing a different kind of orange appear — the fall colors on our mountains rather than the cones on our roads. We are fortunate to be surrounded by the Wasatch Mountains and all the beauty they bring.

Starting in October, staff and volunteers will begin preparing the holiday lights along Main Street and our Civic Center Park. Somehow, each year seems to pass a little faster than the one before.

Thank you for your patience and thank you for allowing me to serve as your mayor. I consider it a privilege.

— Mayor Packard

TIME TO SHUT OFF THE SPRINKLERS!

Shutting off your irrigation system before temperatures dip below freezing helps prevent costly damage caused by frozen water in pipes and sprinkler heads.

TENTATIVE SHUT-OFF DATE: OCTOBER 15

Springville City plans to shut off pressurized irrigation (secondary water) around October 15, but this date may shift depending on the weather. For the most up-to-date information, please visit our [website](#) or follow us on [Facebook](#):

[springville.org/public-works/water/irrigation](#)

WHY IT MATTERS:

Even after you stop watering, residual water can remain in your system. If it freezes, it can crack pipes, damage valves, and lead to expensive repairs in the spring.

HOW TO DRAIN YOUR SPRINKLER LINES:

There are two common ways to clear water from your system:

Passive Drainage – If your system was installed with subsurface drain valves, water will naturally flow out of the lines once the system is shut off. This method is simple and effective for many residential setups.

Blow-Out Method – Using an air compressor, you can force water out of the sprinkler lines. This method is especially useful for systems without passive drains or in areas with deep freezes. If you’re not familiar with this process, consider hiring a professional to ensure it’s done safely and thoroughly.

Taking a few minutes now can save you time, money, and hassle next spring. Thanks for helping keep Springville running smoothly!

***Note:** All new residents connecting to the pressurized irrigation (PI) system must schedule an inspection before using the water for the first time. Please check the city website for a list of requirements when connecting to PI at the above link or scan this QR Code.

SOLID WASTE

There will be no delay in garbage or recycling service for Veterans Day, Wednesday, Nov. 11. Routes will run as regularly scheduled.

For Thanksgiving Day, Thursday, Nov. 26, 2026, only garbage service will be delayed one day. Thursday garbage routes will be collected Friday, Nov. 27. Recycling service will not be affected.

There will be no delay in garbage or recycling service for Christmas Day, Friday, Dec. 25, 2026 or New Year’s Day, Friday, Jan. 1, 2027. Routes will run as regularly scheduled. Please have your cans out by 7 a.m. and be courteous when you call with questions.

STORM WATER

Springville City’s Stormwater Department will use the city’s street sweeper and leaf vacuum to remove leaves and debris from open ditches and gutters throughout the city.

Crews will generally work from 7 a.m. to 4 p.m. Monday through Friday and will avoid neighborhoods on garbage collection days. Residents can help by keeping vehicles and other obstructions off the street when crews are working in their area.

Please do not rake, push or blow leaves and yard debris into the street or gutter. In addition to being prohibited by [City Code 4-13-201](#), leaves and debris can clog the stormwater system and contribute to flooding. Property owners are responsible for disposing of leaves and other yard waste from their property.

Residents may take leaves and other green waste to the Springville City Green Waste Facility, open March 1 through Nov. 30 from 8 a.m. to 5 p.m., Tuesday through Saturday.

Thank you for helping keep Springville’s streets, gutters and stormwater system clean and clear.

VETERANS WALLS OF HONOR

The community has raised \$85,000 to permanently recognize the veterans who are interred in Springville’s two cemeteries with a Veterans Wall of Honor. The total cost of the project is \$140,000.

The final \$55,000 is needed to finish the project. To view the current veterans list, submit additional names, or donate; scan the QR Code or visit [springvilleveterans.com](#).

If you have names you’d like to submit for inclusion on the walls, please submit them by December 1, 2026. Thanks to the over 150 citizens who have responded to the request for information.

Every contribution of \$1,000 or more will be listed in the donor section on the wall for recognition and appreciation. Any amount is welcome and appreciated. Please help finish the walls.

FIRE SAFETY TIPS FOR WINTER

As temperatures drop, Springville Fire & Rescue reminds residents to take a few simple precautions when heating their homes. Fireplaces, wood stoves and space heaters can help keep your home comfortable, but they also require a little extra care.

FIREPLACES & WOOD STOVES

Have chimneys and heating equipment inspected and cleaned annually by a qualified professional.

Keep anything that can burn at least 3 feet away from fireplaces, wood stoves and other heat sources.

Use a sturdy glass or metal fireplace screen to keep sparks and embers contained.

Never use flammable liquids to start a fire, and do not burn charcoal indoors.

Put fireplace and wood-stove fires completely out before leaving home or going to bed.

Dispose of cooled ashes in a covered metal container kept outdoors and away from the home and other buildings.

If you use manufactured fire logs, always follow the manufacturer’s directions.

SPACE HEATERS & HOME HEATING

Plug portable space heaters directly into a wall outlet—never an extension cord or power strip.

Place space heaters on a solid, flat surface at least 3 feet from curtains, bedding, furniture and anything else that can burn.

Never leave space heaters on when you leave the room or go to bed.

Never use a stove or oven to heat your home.

Have your furnace inspected regularly and keep the area around it clear.

CHECK YOUR ALARMS

Make sure your home has working smoke alarms inside bedrooms, outside sleeping areas and on every level. Carbon monoxide alarms should also be installed outside sleeping areas and on every level of the home. Test alarms regularly, and make sure everyone in your household knows two ways out of the home. Practice your family fire escape plan at least twice a year. A few minutes of prevention can make a big difference in keeping your home and family safe this winter.

If you have questions about home fire safety, contact Springville Fire & Rescue at 801-491-5602.

SPOOKY SPRINGVILLE

Throughout October, stop by the Springville Museum lawn to see Spooky Springville come to life! Springville City departments will

create fun and creative skeleton scenes, with new displays appearing every Monday and Thursday throughout the month. Visit often to see what’s new, then cast your vote for your favorite scene and help determine which department will be crowned the Spooky Springville champion!

JACK-O-LANTERN FLOAT

October 26 • 5:30–7:30 p.m.

Bring your carved pumpkin (12 inches or smaller) and join us for one of Springville’s favorite Halloween traditions—the Jack-O-Lantern Float! Come fill the pond at Wayne Bartholomew Family Park with glowing pumpkins and enjoy a festive evening with family and friends. Food trucks, s’mores, and other Halloween activities will make this a fun night for all ages. Costumes encouraged. More information at [springville.org](#).

HOLIDAY FESTIVAL

December 4 • 5–8 p.m. and December 5 • 4–7:30 p.m.

Celebrate the season at the Springville Holiday Festival! Be ready for Santa’s grand arrival and enjoy a festive gathering filled with holiday vendors, food, live entertainment, visits with Santa, and activities for the whole family. Event information at [springville.org](#).
